## Course Description

# Certification of Competency in Business Analysis (CCBA®) training program

The Certification of Competency in Business Analysis™ (CCBA®) designation is a professional certification for individuals with some business analysis experience. This course covers the basic skill sets required by Business Analyst (BA) professionals based on the industry recognized standards and benchmarks such as International Institute of Business Analysis (IIBA®), A Guide to the Business Analysis Body of Knowledge® (BABOK® Guide), and other industry best practices. The course also provides exposure to business analysis concepts which helps professionals apply the knowledge gained during the program

Certification of Competency in Business Analysis™ (CCBA®) is one of the rapidly growing professional courses with more people trying to understand its value. Business analysis is the set of tasks and techniques used to work as a liaison among stakeholders to understand the structure policies, and operations of an organization, and to recommend solutions that enable the organization to achieve its goals. An individual with CCBA® certification will add more value to an organization. CCBAs are acknowledged as competent individuals who perform a role which is increasingly recognized as a vital component of any successful project.

“ The average Salary for for a Business Analyst is \$70,170 in United States according to Payscale.com ”
